

## **Adult Dental and Vision Coverage Changes for July 1, 2006**

### **Dental**

**Traditional Medicaid Clients:** You have been told in the past that adult dental services will end July 1, 2006. That has changed! Recent funding changes now allow some adult **dental benefits to be continued** for Traditional Medicaid Clients (adults who receive a purple Medicaid card). The dental benefits to be continued are:

- Exams
- X-rays
- Preventative Services
- Fillings
- Extractions
- Root Canals
- Dentures and Partial Dentures

**Non-Traditional Clients:** Funding was not obtained to continue this dental benefit. **All Medicaid dental services, including dental emergency services, for those in the Non-Traditional Medicaid program will end June 30, 2006.**

### **Vision**

**Traditional Medicaid Clients:** Beginning July 1, 2006, Medicaid will **NOT** pay for eyeglasses and frames for non-pregnant adults. (Adults who receive a purple Medicaid card)

**Non Traditional Medicaid Clients:** There is **no** change to the vision program for Non-Traditional Medicaid Clients (adults who receive a blue Medicaid card). Medicaid will continue to cover \$30.00 towards:

- One Annual Eye Exam

Note: **Medical treatment** for eye diseases continues to be a benefit for both Traditional and Non- Traditional clients.
